

SB, Engine model information, FS, SoffCut, PP 2016-03

This is an update of SB B1500029 with one motor model change and two new models added (FS 305, FS 3500 and PP 518).

Previous update of SB B1500020 with two models added (FS 5000 D and FS 7000 D).

SYMPTOM/DESCRIPTION

When selling or servicing products with third party engines such as Honda, Deutz etc., it is important to establish contact with a local engine dealer since Husqvarna Construction Products generally are not supplying spare parts or service for these engines.

Use the engine model information in the table below when contacting the dealer.

Note: All engine models might not be known to the specific dealer. Therefore, it is important to contact the dealer prior to sales.

ENGINE INFORMATION

| Floor Saw model | Engine supplier | Engine model name |
|---|-----------------|--------------------|
| FS 305 (from serial no. 2014 4900020, Dec 2014) | Honda | GX160UT2 QXC9 |
